FOREWORD

Dear colleagues,

After the fulminant re-launch of our on-site event during the 25th Anniversary Congress with again more than 2,000 participants on site in Düsseldorf, it is now our great pleasure to cordially invite you to the 26th edition of our International Endoscopy Symposium!

The congress can take place on site like before the pandemic. It offers all opportunities for personal meetings with colleagues, business partners and friends from all over the world. In recent years, we have further developed the digital infrastructure of our congress with the introduction of our interactive new web platform and the new congress app, which enables exclusive later on-demand access and active participation in discussions and TED questions for registered participants. Furthermore, the platforms offer the possibilities of direct interaction with speakers and other participants, the exchange of information on new developments and technologies, and participation in virtual satellite symposia.

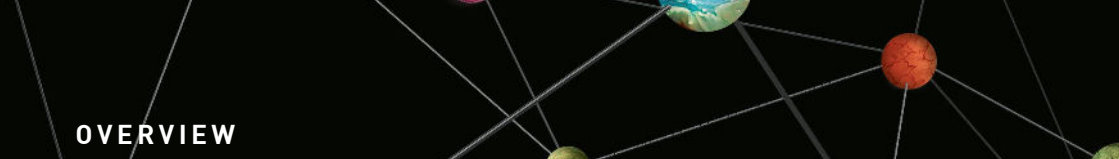

The symposium will be complemented by a certified hands-on training course. This includes basic techniques as well as training on advanced endoscopic therapies. Due to the overwhelming demand at last year's congress, we will offer additional seats this year – however, based on experience, we recommend early registration!

As with our previous symposia, renowned experts from different parts of the world will be on site in Düsseldorf, allowing us to learn from each other on an international level. Participants can expect a varied program with live demonstrations from the Evangelisches Krankenhaus Düsseldorf, mini and satellite symposia, a satellite symposium for nurses, state-of-the-art lectures, and snack with the experts, using the latest AV technology to provide an ideal professional environment for learning and sharing knowledge and experience at the Maritim Hotel Düsseldorf Airport City. It is designed to encourage your active participation and stimulate discussions. The high number of participants and the very positive survey results of our previous symposia prove the success of our concept.

The faculty, the congress organization, LUX AV and our team are looking forward to welcoming you personally on site again and wish you an interesting and enjoyable stay in Düsseldorf!

OVERVIEW

Learning objectives

- Evaluate recent advances in endoscopy; assess their clinical utility and level of evidence
- Apply traditional and new endoscopic techniques, instruments and accessories
- Choose the optimal endoscopic approach for specific case management
- Manage failed interventions and adverse events
- Recognize the importance of an interdisciplinary approach
- Emphasize the importance of quality assurance in endoscopy

International, multimedia and interactive format

- Presentations and demonstrations by renowned experts from around the world
- 7 hours of live endoscopy cases transmitted from the Evangelisches Krankenhaus Düsseldorf
- Basic and advanced hands-on courses
- Mini-symposia, state of the art lectures, satellite symposia, snack with the experts, symposium for nurses
- Audience response system for interactive discussions, Q&A and debates
- Language: English, simultaneous translations into German

Cooperation with the biomedical industry

- Large exhibition of a wide range of conventional and novel biomedical products
- National and international representatives of numerous companies
- Variety of opportunities for interactions, discussions, demonstration of devices, expanding contacts and business

Intended audience

- Gastroenterologists, oncologists, internists
- Surgeons, interventional radiologists
- Nurses
- Trainees, students

**Symposium location:
Maritim Hotel Düsseldorf**

- Situated at the Düsseldorf International Airport and easily accessible by all transportation systems
- Modern conference halls with high quality audiovisual transmission and a spacious area for exhibitions
- Convivial atmosphere for breaks and informal interchanges
- Convenient accommodation at special rates

**COCS GmbH – Congress
Organisation C. Schäfer**

A professional and experienced organization which has successfully managed our previous symposia as well as many other national and international congresses.

**Website, congress platform
and mobile app**

- Digital Scientific Program in English and German
- Online registration & updated information
- Participation in online pre- and post-symposia
- Full later on-demand access to live endoscopy sessions, edited video cases and lectures for registered participants

SCIENTIFIC PROGRAM | Thursday, February 1, 2024

HANDS-ON COURSES

Hands-on courses are offered in two skill levels to provide practical experience on new techniques and devices. "Basic" courses are dedicated to endoscopists with no or limited practice in a specific procedure. "Advanced" courses enable experiences to be expanded for those who already have basic skill in clinical practice. In each session of 120 minutes one tutor will teach 6 participants.

Please note:

- Limited number of participants, registration is necessary
- Registration fee for each session: 120 EUR
- Only for registered attendees of the symposium

09.30

SESSION 1

Room Mauritius

- 1) Basic: ESD upper GIT
- 2) Basic: EMR colorectum
- 3) Basic: EUS interventional
- 4) Advanced: POEM
- 5) Advanced: Management of bleeding
- 6) Advanced: ERCP with Cholangioscopy

12.30

SESSION 2

Room Mauritius

- 7) Basic: EMR upper GIT
- 8) Basic: Management of bleeding
- 9) Basic: ERCP
- 10) Advanced: ESD upper GIT
- 11) Advanced: Defect closure
- 12) Advanced: EUS interventional

15.30

SESSION 3

Room Mauritius

- 13) Basic: EMR upper GIT
- 14) Basic: Defect closure
- 15) Basic: Barrett ablation
- 16) Advanced: ESD upper GIT
- 17) Advanced: EUS interventional
- 18) Advanced: EMR colorectum

**Various industry satellite symposia will also take place on Thursday.
Please find further details on page 18.**
